CAREER OBJECTIVE

Software QA Engineer with 1.5+ years of experience in manual and automation testing across web, mobile and API platforms. Proficient in Playwright, Selenium, TestNG, Rest Assure, Postman, Appium and JMeter, with hands-on experience testing Fintech, E-commerce and Enterprise SaaS applications. Skilled in designing test scenarios, executing automated and manual tests and ensuring software quality within Agile development environments.

EXPERIENCE

Junior Software QA Engineer

meldCX

October 2025 – Ongoing

Dhaka, Bangladesh

- **Test Planning & Execution**
Review test plans and prepare multiple test cases per release cycle, ensuring comprehensive coverage across functional and regression scenarios.
- **Android Testing**
Execute Android regression automation suites using Appium, covering 25+ test scenarios and 170+ test cases across 3 devices.
- **Web Testing**
Perform manual testing for web applications and develop automated regression test scripts using Playwright, identifying around 16 issues.

Junior Software QA Engineer

AKIJ iBOS

November 2024 – September 2025

Dhaka, Bangladesh

- **Manual Testing**
Ensured release-ready quality for a Shopify theme through functional, UI, and cross-browser testing across product, cart, and checkout workflows.
- **Automation Testing**
Built the automation structure and initial test scripts for a Travel & Booking Platform platform, enabling repeatable regression testing from scratch.
- **End-to-End Testing**
Owned end-to-end testing of the complex Pop-up Form feature in the Form Builder app, covering functional, regression, and edge-case scenarios through to delivery.

EXPERTISE

- **Manual Testing:** Smoke and Sanity Testing, Regression Testing, System Testing, Performance Testing, UAT, Usability Testing, Requirement Analysis, Test Planning, Designing, Writing and Reviewing Test Cases, Test Execution and Evaluation, Creating Test Report, and Bug Reporting using Test Management Tools
- **Agile Methodology and Project Management Tool:** Jira, Scrum
- **Performance Testing Tool:** JMeter
- **API Testing Tool:** Postman, Newman
- **Programming Languages:** OOP with Java, JavaScript
- **Test Automation Tools and Frameworks:** Playwright, Selenium, Junit, TestNG, Rest Assured, Mocha and Axios, Appium
- **Database:** MySQL
- **Version Control:** GIT (GitHub)
- **Operating System:** Windows

ACHIEVEMENTS

Successfully completed the Full Stack SDET course from Road to SDET, consistently ranking among the top 3 participants for three consecutive months and achieved the **Best Performance Award**.

PROJECTS

- Professional Projects**
 - Enterprise SaaS**
 - * An enterprise SaaS platform for managing Android devices, Windows agents, kiosks, and cloud-based deployments across distributed business environments.
 - FinTech**
 - * A global digital financial services platform supporting international money transfers, payment processing, and compliance-driven transaction workflows.
 - Online Travel Agency**
 - * A Bangladesh-based online travel agency platform supporting flight booking, hotel reservations, tour packages, and visa processing with multi-method payment integration.
 - E-commerce**
 - * An e-commerce platform project supporting online stores, product management, shopping cart functionality, and checkout processes.
- Hands-on Personal Projects**
 - [nopCommerce Automation using Playwright](#): Automated e-commerce workflows including authentication, cart, and checkout validation.
 - [Daily Finance Web Automation using Playwright](#): Automated critical web workflows and UI validations.
 - [Daily Finance Web Automation using TestNG](#): Selenium-TestNG framework implementing Page Object Model for web automation.
 - [API Automation using Rest Assured](#): Automated REST API validation for requests, responses, and workflows.
 - [Android App Automation](#): Appium-based Android automation covering user flows and regression scenarios.
 - [Database \(MySQL\) Testing](#): Database testing project focused on data validation and integrity checks.
 - [D-Money API Testing using Postman](#): API testing project covering authentication, transactions, and data validation.
 - [Performance Testing using JMeter](#): Evaluated application performance, stability, and response times under load.
 - [D-Money Manual Testing](#): Manual testing project covering test execution, validation, and bug reporting.

SCHOLASTIC RECORDS

Master of Business Administration (MBA) Bangladesh University of Professionals	CGPA: 3.64/4.00	2024
BSc in Computer Science and Engineering Daffodil International University	CGPA: 3.54/4.00	2019
Higher Secondary Certificate (H.S.C) Govt. KC College, Jhenaidah	GPA: 5.00/5.00	2014
