CAREER OBJECTIVE

Detail-oriented and highly motivated Software QA Engineer with hands-on experience in manual and automation testing using tools like Selenium, Playwright, and Postman. I'm competent in executing test cases, tracking bugs using Jira, assessing requirements, and collaborating with development teams. I have experience in functional, regression, and UI testing, as well as SQL and API testing. I'm excited to contribute to the delivery of top-notch software by joining a productive Agile QA team.

EXPERIENCE

Junior Software QA Engineer

meldCX

October 2025 – Ongoing

Dhaka, Bangladesh

- Reviewing Test Plan.
- Preparing and Executing Test Cases.
- Performing Android App Automation and Android Device Testing.
- Performing Regression Testing for Web Automation.
- Performing API Testing and Performance Testing.
